## Hello

As we approach the end of what has been a busy and exciting year for us, we would like to thank you for your continued support, positive feedback and referrals. We are extremely proud of the progress our students have made this year and the results that they have achieved. We are also extremely proud of our new building, location and brand.

## New Services for 2018

As many of you are aware we continually review the services we have to offer including how the centre is managed and operated. Considering this review, in 2018 we are excited to introduce the following new services;

- **Cellfield Remuera** – a specialised intervention programme that **unlocks the power to read**. This is an outstanding programme that will assist those students with visual and/or auditory processing difficulties. It is also a powerful tool to assist students who are learning English as a second language; <https://cellfield.nz/>
- **Auckland Irlen Diagnostic Clinic** - which provides coloured lens treatment for people who have difficulties processing visual information due to light sensitivity <http://irrlen.com/>
- **The Winner's Institute NZ** – modules, programmes and a book for senior students (years 9-13) that will revolutionize students study skills and habits, assist with their cognitive functioning, motivation and direction.
  - TWINZ is an exciting new partnership between Zest Education and **Dr. Kerry Spackman** who is a world-renowned neuroscientist. Kerry has many outstanding accolades, including being a long-term consultant to formula-one teams, working with our Olympians and the All Blacks.
  - Kerry is the author of '**The Winner's Bible**' which is a number 1 best seller; <http://www.winnersbible.com/about>
  - Kerry started his career as a 'Maths and Science' teacher at Auckland Grammar, reputedly leading his 3A physics class to a 98% average for the year.
